**Keio to progressively add Keio Line/Inokashira Line 1-day Tickets
and Keio Mogusaen Admission Tickets
to lineup of digital tickets for foreigners visiting Japan
starting Wednesday, February 18**

Keio Corporation (Headquarters: Tama City, Tokyo; President and Representative Director: Satoshi Tsumura) will **progressively add Keio Line/Inokashira Line 1-day Tickets and Keio Mogusaen Admission Tickets to its lineup of digital tickets** starting Wednesday, February 18.

Last May, Keio Corporation updated its three types of special passenger tickets related to Mt. Takao and Yomiuri Land from paper tickets to digital tickets for the purpose of facilitating the use of Keio Lines by foreign tourists visiting Japan. The introduction of digital tickets eliminates the need to redeem passenger tickets for paper ones and allows customers to use the tickets with their desired timing on their designated use date.

The two brand-new additions to the lineup are **Keio Line/Inokashira Line 1-day Tickets and Keio Mogusaen Admission Tickets**.

Keio Line/Inokashira Line 1-day Tickets are passenger tickets that offer great value by allowing unlimited rides on all Keio and Inokashira Lines for one day. Customers can use these tickets to spend a day enjoying the appealing locations along these lines in a wide range of forms, such as hiking the nature-rich Mt. Takao while taking in its gorgeous scenery or shopping in Shimokitazawa or Kichijoji.

A Japanese garden featuring an abundance of nature and a panoramic view of the Shinjuku Shintoshin and other locations on clear days, Keio Mogusaen hosts a pair of charming tea rooms in the form of Shōren-an and Sanreki-an and views of nearby nature that can be enjoyed from the lookout point within the garden. Flowers and foliage from all seasons, including plum blossoms and maple leaves, meld in perfect harmony with the historical ambience to ensure visitors spend a moment in tranquility while there

By enhancing its digital tickets for foreigners visiting Japan, Keio Corporation will compel them to experience the appeal of Keio-operated lines and endeavor to revitalize the areas along those lines.
